Thanks for attending the Circle of Caring Lunch

Intentionally Building Positive and Caring Relationships

HIGHLIGHTS

Circle of Caring lunch began with greetings from Community Liaison Nina Marie.

David McCarter and Kim Mitchell of CRI teamed up

again to continue sharing information about the Circle of Caring app being developed by a Detroit-based group.

- The purpose of this app is to maintain our collaboration and communication between meetings. This is something that is very specific to this group.
- After the app is released, it may be called Common Agency, Circle of Caring.
- The developer will provide us with a listing of all COC members, their organizations, and what they do.
- In the Right Questions Project, we'll be able to ask a question, collaborate on an answer, and form a group to help solve problems that can come up throughout the community.
- More updates are coming soon!!
